Tonia, is this the kind of response the PIOT can help with?

Susan Spalding, Associate Director
Hazardous Waste Branch
EPA Region 6
(214) 665-8022

Michael,

As a follow-up, I have been informed that Susan Spalding is our R6 current Public Information Officer on the hurricane.

She can be reached at 214 665 8022.

I spoke with her briefly, but only to inform her that you had the question below and that I would be sharing her information with you.

With kind regards,
Marcia

Good Day Marcia,

I hope all is well. I just wanted to touch bases to see if you were able to find out anything about EPA and if it actually provides recovery assistance funding.

I know FEMA just received an additional funding package but I wasn't aware if it trickled over to EPA as well.

Michael

Good Day Michael,

All is well, and for you I wish the same.

I am not sure I know the answer to your question, but if I find out I will let you know.

With kind regards,
Marcia

Subject: Recovery Efforts Inquiry

Good Day Marcia,

I hope all is well. We have been following the pre and post Harvey response and I was posed a question and thought that you may be able to provide some insight. I can report that so far Shintech has not sustained any damage but Arkema was supplying them with some initial feedstock in which they had to resolve the deficiency due to the plant incidents there.

Does EPA receive any funding from FEMA and/or issue contracts as it relates to the recovery efforts?

I received this link with the inquiry but had no idea if that was the case:

https://response.epa.gov/site/site_profile.aspx?site_id=12353

If EPA does who would be the contact at Region VI to speak with? I had always thought that FEMA handled all response recovery matters but I could be wrong.

Thank you for your time and attention and I look forward to catching up with you soon.

Regards,
Michael
